Team roper behind barrier must throw the first loop at steers head.
4. No heeling barriers are to be used.
5. Each contestant will be allowed to carry one rope only. Each team will be allowed a total of two throws. Roping steers without turning the loop loose will be considered a no time.
6. No cross firing – the direction of the steer's body must be changed before the heel loop can be thrown. However, if the steer stops, steer must only be moving forward for the heel loop to be legal. Any heel loop thrown before the completion of the initial switch will be considered a crossfire and a no time will be recorded.
7. No Team Roper can enter without a partner. If one partner does not show up, the other partner will have the right to choose a partner only from another contestant who is already entered in the rodeo. No contestant may rope more than one time to make up a team. The team will draw stock

in the original position. All changes must be made with the secretary before the rodeo begins. The substituted team must take the first available position as well as the steer drawn in that position.

8. All changes in lists or roping order to split horses, etc. must be made before any stock for that event is loaded in chutes. After stock is loaded, ropers must rope in order listed.

9. Steer must not be handled roughly at any time and ropers may be disqualified if in the opinion of the field judge they have intentionally done so.

10. If steer is roped by one (1) horn, roper is not allowed to ride up and put rope over the other horn or head with his hand.

11. If the heeler ropes a front foot or feet in the heel loop, this is a foul catch. Neither contestant may remove the front foot or feet from the loop by hand. However, should the front foot or feet come out of the heel loop by the time the field flag judge drops his flag, time will be recorded.

12. If a permanent fixture fouls the roper, no re-run will be awarded.

13. **LEGAL CATCHES:** There will be only 3 legal head catches:

a. Head or both horns.

b. Half a head.

c. Around the neck.

d. Dew claw catches are legal if the catch holds for the field judge's drop of the flag.

1) Any heel catch behind both shoulders is legal if rope goes up heels.

2) One hind foot receives a five (5) second penalty.

3) If loop crosses itself in a heel, catch is legal. This does not include head catches.

4) If heeler misses, header will follow steer from arena for the steer to be turned loose.

14. Money won by a team will be paid out equally between both header and heeler.

15. Stock used for Team Roping will either be steers or open heifers (not bred, no wet bags).

Stock must be uniform or stock contractor will be subject to a fine.

16. Steers must weigh at least 400 pounds and not over 650 pounds. Prior to the rodeo all cattle must be run through the chute. If steer's horns will not fit through the chute, steers horns must be tipped to fit through, or removed from the draw. Steers must have a minimum of 6" from base to tip on each horn.

17. If contestant runs the wrong steer, a re-run will be given on the correct head and the time on the incorrect steer will be disregarded.

18. Time to be given when the steer is roped on both ends, in a direct line, and horse is on all four feet. Horses must be facing steer in approximately 120-degree angle or better with ropes tight, dallied or tied

19. When a barrier is stretched and the animal is standing, contestant has a 45 second time limit to call for stock. A contestant has 45 seconds to leave the chute. After 45 seconds, the contestant will receive a \$25.00 fine, after 1 minute, stock will be released and contestant receives a no time.

20. A contestant may have a person to push their steer out of the chute. No pusher will be allowed to follow steer out of chute in the act of tailing steer. This will incur an immediate disqualification.

21. There will be no ground money. In case of only one qualified time, the qualifying contestant will receive all money in that event. Points will count for all money paid. If there are no qualified times, stock contractor will receive all the money.

22. If contestant dismounts during run, team will be disqualified.

23. Headers are required to hold dally until head catch is inspected and approved by the field judge. Failure to do so will result in disqualification.

24. Ladies over 40 and men over 60 will be allowed to tie off to saddle horn. No dally is required, heel side only. Roper must inform judges prior to competition

25. All judges' decisions will be final.
